

# Denim & Lace Russian Sage

## *Pervoskia atriplicifolia* 'Denim & Lace'

- **Use:** The perfect addition to a garden in hot, dry areas. Lacy-like, bright sky blue flowers are held on amethyst calyxes, with strong stems and an upright habit. The beautiful color will last a long time! The plant has a smoky blue flower and blooms from mid-summer to fall frost. Good for Firescaping.
- **Exposure/Soil:** Prefers full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant once established.
- **Growth:** Grows quickly to 2-3' tall and 3' wide. A few feet shorter than most Russian Sage on the market.
- **Hardiness:** Zone 4-9 Perennial
- **Foliage:** Deciduous. Features finely-dissected, aromatic, gray-green foliage on stiff, upright, square stems are highly aromatic. Silvery foliage can provide good winter interest in warm winter climates.
- **Flower:** Whorls of 2-lipped, tubular, violet-blue flowers tiered in branched, terminal panicles appear over a long summer bloom. Bloom begins in July and continues right through September, which makes Perovskia an exceptionally long-blooming perennial.
