

# Pink Garden Phlox

## *Phlox paniculata* 'Luminary™ 'Opalescence'

- **Use:** A welcome addition to any full sun garden is Phlox paniculata LUMINARY™ 'Opalescence'. The LUMINARY™ series of phlox is one of the most powdery mildew resistant varieties on the market. Standing 30-32 inches tall and spreading to 28 inches wide, Phlox LUMINARY™ 'Opalescence' is a perfect size plant for garden borders, mass plantings or as part of a Tall Phlox collection. The light pink flowers have a deep magenta eye and are accented by the dark green foliage. Mid-summer the blooms open and put on a great show.
- **Exposure/Soil:** Prefers full sun to part sun. Water when top 3" of soil is dry. Does not like sprinklers, water soil not leaves.
- **Growth:** Fast growth of 24-30" x 28" wide
- **Hardiness:** Zone 3-8; Perennial.
- **Foliage:** Deciduous; Dark green leaves. One of the very best for disease resistance; a care-free plant. We recommend planting your phlox in an area with good airflow.
- **Flower:** Fragrant, light pink flowers have dark pink eyes and form defined panicles. Give them a light trim when they are done blooming and wait for the second round of blooms.

**Fast and  
very easy  
to grow!**
