## *Phygелиus x rectus* COLORBURST™ Series

- **Use:** The eye-catching flare of these intense flowers will turn up the level of excitement in borders, containers and mixed planters. Bountiful flower counts and vigorous crowns make this plant an excellent thriller and filler for sunny areas. Extended bloom times will ensure flushes of flowers from late spring to late fall. This improved cultivar does not spread, keeping your accent colors exactly where you want!
- **Exposure/Soil:** Prefers full to part sun. Requires well-draining soil and appreciates slow release fertilizer. Water regularly under the leaves. If you are not good at watering get some **Soil Moist**. In extreme heat it may need daily watering.
- **Growth:** Moderate grower 20-28" high and 30" wide.
- **Hardiness:** Zone 7-10; Perennial
- **Foliage:** Deciduous; Dainty, green leaves.
- **Flowers:** The series offers 4 colors of deep red, orange, yellow, and rose. The showy clusters of dangling, tubular, fuchsia-like, flowers will be the star of the show from midsummer into fall.
