

Heavenly Habit Jacob's Ladder

Loves shade and is very easy to grow.

Polemonium boreale 'Heavenly Habit'

- **Use:** Blue and fragrant!- a wonderful combination! An excellent choice for many garden conditions. Bright flowering, attractive foliage, long lived and extremely hardy. Great for shady beds, borders and containers. Coarsely divided pinnate ladder-like leaves. Delightful elegant clusters of blossoms on upright stems emerge from attractive green ferny foliage.
- **Exposure/Soil:** Prefers part shade morning sun being best. Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. For a neat appearance, remove old foliage before new leaves emerge. Divide clumps every 2 to 3 years in early spring.
- **Growth:** Foliage mounds 15-18" high and 18-24" wide are stunning spring to frost.
- **Hardiness:** Perennial; Zone 4-8
- **Foliage:** Deciduous. The leaflets form opposite pairs along the stems giving a ladder effect hence the common name of Jacob's Ladder.
- **Flower:** Fragrant blue flowers are larger than other blue species Jacob's Ladder.
