

# Dwarf Pink Mexican Petunia

## *Ruellia brittoniana* 'Katie Pink'

- **Use:** The blooms are borne on the top of the plant in clusters of trumpet-shaped flowers. This plant can tolerate quite a bit of abuse and neglect and has great drought tolerance.
  - **Exposure/Soil:** Mexican Petunias prefer full sun but will tolerate some shade (to the sacrifice of some flowering). Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
  - **Growth:** The plants are erect, 12-24 inches tall and have few branches.
  - **Hardiness:** 7-11 Perennial, Must be mulched in the winter.
  - **Foliage:** Deciduous. The leaves are 2-5 inches long, narrow at the base and very short.
  - **Flower:** The flowers are much like those of a cultivated petunia however they are a bit more cupped and funnel-like. Blooms spring to fall. Cotton candy pink blossoms.
- Lots of blossoms from spring until late fall!**
