

Snowhill Salvia

Looking for a summer show color? Easy to grow, salvias perform best in full sun. For the greatest impact in the garden, plant in drifts!

***Salvia nemerosa* 'Snowhill'**

- **Use:** An exceptionally long bloomer with numerous spikes of bright white flowers set against gray-green, aromatic foliage. A wonderful easy care choice for planting in drifts or spotting into a sunny mixed border or wild garden. The flowers are long-lasting in arrangements. Fairly drought tolerant once established and deer resistant.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Must have good drainage. Drought tolerant once established
- **Growth:** Moderate growing, bushy habit; reaches 18-20 in. tall and wide.
- **Hardiness:** **Zone** 5-9 perennial. Mulch around plant in the winter.
- **Foliage:** Deciduous. Its foliage is aromatic when crushed.
- **Flower:** Pure white flower spikes put on a marvelous show beginning in early summer and continue well into the summer if dead-headed. Nonstop profusion of color from April until late October! Trim back occasionally to keep a tidy plant.
