

Corsican Stonecrop

Sedum dasyphyllum 'Major'

- **Use:** Adding to the palette of colors that creeping Sedums have to offer, this blue-leaved ground cover has tight steel blue succulent foliage that grows to 4" in height. Well suited to hot, dry environments such as the full sun rock garden or on a green roof. Tolerant of dry infertile soils and is useful for covering difficult places and providing erosion control on banks.
- **Exposure/Soil:** Needs to be planted in full sun in well-drained soil. It will tolerate most soil types and is drought resistant.
- **Growth:** Grows 2-4" tall and spreads 12" wide.
- **Hardiness:** Zone 7-10; Perennial
- **Foliage:** Semi-evergreen glaucous leaves can vary from turquoise to silver and will blush lavender in full sun.
- **Flower:** White, airy star-shaped flowers appear in early summer.

Drought tolerant and so easy to grow! A hardy ground cover species that makes a colorful outdoor accent throughout the seasons for dry areas.
