

Sunsparkler® Angelinas Teacup Sedum

Striking needle-shaped leaves in a brilliant, golden yellow color. Wonderful as a groundcover or in a rock garden. Drought tolerant and so easy to grow! Very good at controlling weeds also.

Sedum rupestre 'Angela's Teacup'

- **Use:** If you love the look and color of Angelina Sedum but want something shorter and tighter in stature, check out Sedum SUNSPARKLER® Angelina's Teacup. SUNSPARKLER® Angelina's Teacup is going to 'wow' in your garden. The very fine, needle like foliage holds its bright chartreuse yellow green color all summer long. In the cooler weather this plant puts on a spectacular show of bright orange and reds. Unlike 'Angelina', SUNSPARKLER® Angelina's Teacup has been bred to not produce flower heads so the showy mound stays neat and tidy looking. SUNSPARKLER® Angelina's Teacup is a low growing, mounding sedum, a great selection for rock gardens, slopes, borders, and containers.
- **Exposure/Soil:** Plant in full sun, but will tolerate some shade. Prefers well-drained soil, but it will tolerate most soil types and is drought resistant once established.
- **Growth:** Grows only 3 inches tall and creating a tight mounding clump up to 18 inches wide,
- **Hardiness:** Zone 4-8; Perennial
- **Foliage:** Evergreen (in GA) Forms a trailing mat of succulent golden-yellow leaves with orange-red brilliant winter color.
- **Flower:** Bred to not produce flowers so the yellow foliage is the star of the show.
