

# Creeping Red Sedum

## *Sedum spurium* 'Dragon's Blood'

- **Use:** Rock gardens, borders, edging, under shady trees and steep banks will come alive with carefree color of the Creeping Red Sedum. Place these hardy, northern, nursery-grown plants about 1' apart. They fill troublesome areas with neat 3-4" tall cover. Spreads fast. Does not need pruning. Tolerant of dry infertile soils and is useful for covering difficult places and providing erosion control on banks.
- **Exposure/Soil:** Needs to be planted in full sun in well-drained soil. It will tolerate most soil types and is drought resistant.
- **Growth:** Grows 4" tall and spreads 18-24" wide.
- **Hardiness:** Zone 3-10; Perennial
- **Foliage:** Semi-evergreen foliage, even in sub-zero weather.
- **Flower:** Bright red, star like flowers cover the Creeping Red Sedum plant from June through September.

**Drought tolerant and so easy to grow! An excellent groundcover!**
