

Atlantis Stonecrop

Low, spreading sedums form a solid mat of foliage which is excellent for covering slopes or can be planted as a groundcover in sunny, dry areas. They are extremely drought tolerant and many are evergreen. These are terrific low-maintenance plants that always look their best.

Sedum takesimense 'Atlantis'

- **Use:** A new, beautiful, variegated Sedum featuring small, dark green serrated leaves with very wide, creamy yellow margins. Plant will blush pink in cooler weather. Korean Stonecrop displays small clusters of yellow star flowers in summer. a low-growing clumping succulent perfect for tucking into rock gardens. With its variegated foliage, this Stonecrop is fabulous in a combination container with other succulents. Rabbit resistant.
- **Exposure/Soil:** For hotter zones, this variety prefers morning sun or dappled shade. Prefers well-drained soil, but It will tolerate most soil types and is drought resistant.
- **Growth:** Grows 4-6" tall and 10-12" wide.
- **Hardiness:** Zone 4-9; Perennial
- **Foliage:** Deciduous. Small, serrated leaves are dark green with very wide creamy yellow margins. From a distance, the margins are what catch your eye. You may notice that the creamy margins become tinged with pink blush tones with cold temperatures late in fall.
- **Flower:** Starry-yellow flower clusters are held just above the foliage in summer. Attracts butterflies. Pollinator friendly.
