

Crystal Clear Calla Lily

We love the flowers to cut and bring inside.

Zantedeschia 'Crystal Clear'

- **Use:** Well known as a graceful cut flower especially in eloquent, large flower arrangements, what may not be known about this plant is its adaptability. We have grown them successfully in a flower border along with other bulbs and perennials.
- **Exposure/Soil:** Part sun or at least 5-6 hours of sun. However, we have also had success with them in full sun and fairly shady locations also if the soil is good. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. **GOOD DRAINAGE IS A MUST! WILL NOT TOLERATE RED CLAY!**
- **Growth:** Grows 12-16" tall and 6-12".
- **Hardiness:** Zone 7-10 Perennial
- **Foliage:** Deciduous. Elegant, mid-green, arrow-shaped leaves.
- **Flower:** In mid summer 1 1/2 - 2" pure white blooms add grace to the summer or moonlight garden. Absolutely irresistible with its abundant, pure white trumpet-shaped flowers (spathes)
