

Perfecto Mundo Red Azalea

Azalea 'Perfecto Mundo Red'

- **Use:** In a perfect world, azaleas would bloom for months instead of just weeks, have big, full flowers with pure and true colors, and resist pests and diseases - and that's exactly what Perfecto Mundo™ azaleas do. This innovative series from award-winning plant breeder Dr. Tom Ranney of NCSU combines peerless performance with lacebug resistance, a pest that threatens azaleas in many areas. Perfecto Mundo Red azalea is a neat, rounded shrub that's covered with red blooms in spring, when other azaleas bloom, but then after a brief rest, begins blooming again in mid summer and continues through frost.
- **Exposure/Soil:** Light shade to full sun. Water regularly, when top 3 in. of soil is dry. Feed twice a year with a slow release fertilizer. Prefers slightly acidic well drained soils.
- **Growth:** Moderate grower to 30" feet tall and 3-4' wide.
- **Hardiness:** Zone 6 -9 Shrub
- **Foliage:** Evergreen. Dark green foliage. Resistant to lacebug, a pest that can be problematic in certain areas.
- **Flower:** Look for its fabulous red flowers to begin in spring, gracing the season with weeks of color. After a brief rest, it comes roaring back with waves of blooms in late summer through fall. The true-red flowers contrast with the deep green foliage.

Imagine the perfect reblooming azalea: it would bloom longer than all the others, with pure, rich colors. It would grow well in sun or part shade, and resist damage from the nefarious azalea lacebug that plagues the plant in some areas. You say you want showy red flowers, too? Your wish is our command, as that's exactly what you'll get with this beauty.
