an eye-catching display for the garden. With their unique flower shapes and forms, they are ideal in borders for a pop of impact with long lasting appeal

Azalea x 'MNIHAR017' PP#23,109 (Echo/BloomNAgain)

- **Use:** The Bloom 'N Again® Azaleas were developed by Mr. James Harris, a backyard breeder and hobbyist, with a keen eye for unique and unusual characteristics. These azaleas have been carefully selected for their repeat blooming habits and cold hardiness. The broad range of brilliant colors, flower shape and form make them desirable for any garden. Perfect for mass plantings.
- **Exposure/Soil:** Prefer light shade and well-drained, slightly acidic soil, rich with organic matter. Dig hole two times the width of the container. If the soil appears too sandy or is heavy clay, amend with organic matter. Remove from the container and place in hole so that the top of the root ball is slightly above the ground level. Backfill. Water. Mulch. Keep moist until established.
- **Growth:** Moderate grower to 3-4 feet tall and 3-4 feet wide.
- **Hardiness:** Zone 7-9; Shrub
- **Foliage:** Evergreen; The lush, dense green foliage grows into a semi-upright form.
- **Flower:** Add a pop of color with the stunning dark red blooms of Rojo. This easy to grow repeat bloomer will add color to the garden from summer into fall.
