

# Sunjoy® Mini Maroon Barberry

## ***Berberis thunbergii 'NCBT1' PP30330***

- **Use:** Finally, a colorful, care-free barberry that won't make a nuisance of itself: Sunjoy Mini Maroon®. It took Dr. Tom Ranney over ten years to develop, but the results were worth it. Sunjoy Mini Maroon barberry offers sumptuously deep purple-red foliage on a dense, nicely shaped mound. It needs no pruning to stay small and lush, and like all barberry, it is highly resistant to damage from deer and rabbits. And it does it all without producing the seeds which have made other varieties so problematic. Simply put, it's a better choice.
- **Exposure/Soil:** Adaptable, but prefers well-drained soil. Best in full sun. Tolerates urban conditions like parking lots, street plantings. Pruning is seldom needed, but may be shaped in summer if necessary. Good drainage imperative, no red clay soils unless amended.
- **Growth:** Grows 2-3' tall and wide.
- **Hardiness:** Zone 4a-8b; Shrub
- **Foliage:** Deciduous. Deep purple-red foliage.
- **Flower:** Not known for flowers. This sterile barberry is not invasive!

- Top reasons to plant Sunjoy Mini Maroon barberry:
- Non-invasive, unlike other types of barberry.
  - Deep purple-red foliage from spring through frost
  - One of the most deer resistant and easy-care plants.
