

Heritage™ Better Boxwood

Perfect in pots or as a low foundation shrub. Its rapid growth and strong roots make it suitable for more substantial and dynamic landscape features.

Buxus hybrid 'HER2010B02' PP32309

- **Use:** Heritage boasts dense, deep green foliage that enhances any garden setting. Its traditional boxwood habit, combined with a more compact size, makes it ideal for creating low hedges that beautifully frame pathways or entrances. Heritage's symmetry and adaptability also make it an excellent choice for topiary designs, adding a touch of structure to your landscape. Perfect for use as a hedge, on taller foundations, or in containers, and it responds well to pruning into various shapes. Sustainably bred for disease resistance, Heritage ensures a lush, vibrant appearance with minimal maintenance.
- **Exposure/Soil:** Prefers full sun to part shade. Keep surface of soil moist, but not soggy. Ideal for layering applications, public green spaces, and as a mass planting. Its spreading habit and robust root system make it adaptable to a variety of soil conditions and landscaping needs.
- **Growth:** Grows up to 36-48" high and 24-36" wide.
- **Hardiness:** Zone 5-10; Shrub
- **Foliage:** Evergreen; Densely branched, the tiny, green foliage is abundant and adds a distinctive note to the landscape, retaining its color particularly well in winter. Better Boxwood® is the first collection of scientifically bred blight-resistant boxwood varieties in the United States.
- **Flower:** Spring flowers are inconspicuous.
