

Skylight™ Better Boxwood

Greta columnar shape add architectural interest to the landscape. Its rapid growth and strong roots make it suitable for more substantial and dynamic landscape features.

Buxus hybrid 'HER2009B03' PP32275

- **Use:** The grandest member of the Better Boxwood collection, standing impressively at 6–8 feet tall and 3–4 feet wide. With its fast growth rate and mid-green, evergreen foliage that lightens in spring, Skylight offers quick landscape transformations and a heightened aesthetic appeal. Ideal for creating sophisticated hedges, topiaries, or boundary plantings, and it serves as a stunning solitary centerpiece. Fitting seamlessly into any garden space and providing privacy without overwhelming your landscape. Resistant to boxwood blight, ensuring its durability and long-lasting beauty.
- **Exposure/Soil:** Prefers full sun to part shade. Keep surface of soil moist, but not soggy. Ideal for layering applications, public green spaces, and as a mass planting. Its spreading habit and robust root system make it adaptable to a variety of soil conditions and landscaping needs.
- **Growth:** Moderate grower to 6-8 ft. tall and 3-4' wide, when unpruned. Babylon Beauty has a low spreading growth if not pruned, which makes it an excellent mass planting option.
- **Hardiness:** Zone 5-10; Shrub
- **Foliage:** Evergreen; Densely branched, the tiny, green foliage is abundant and adds a distinctive note to the landscape, retaining its color particularly well in winter.
- **Flower:** Spring flowers are inconspicuous.
