

# 3 gal Freedom /NexGen Boxwood

It was selected due to its high tolerance of boxwood blight and resistance to boxwood

leafminer. Its vigor helps it create an attractive plant quicker than many cultivars but it also makes annual pruning a must. With annual pruning, this plant makes a fabulous specimen.

## ***Buxus NewGen Freedom® 'SB 300' PP32421***

- **Use:** NewGen Freedom® is a relatively vigorous, rounded cultivar that is slightly taller than wide. It has beautiful glossy medium green foliage. Its habit is more uniform and tighter than 'Wintergreen' or 'Winter Gem' thus making it an excellent choice for many formal and residential landscapes. Deer resistant!
- **Exposure/Soil:** Only requires well-drained soil and prefers shading and wind protection in winter if grown on an exposed site. Tolerates some drought and will grow in dry soil but prefers well-drained, loamy, sandy or clay soils with a pH of acidic to slightly alkaline (6.8-7.7)
- **Growth:** Slow grower to 4-5 ft. tall and 4-5' wide. Grows fast, 3 to 6 inches per year. should be pruned each year in late winter to early spring. If not pruned, the plant will tend to open up in the center, especially in spring when new foliage is wet and young.
- **Hardiness:** Zone 5-8; Shrub
- **Foliage:** Evergreen; Small, obovate, medium green leaves (to 5/8" long). Beautiful, glossy, green foliage
- **Flower:** Spring flowers are inconspicuous.
