Buxus microphylla 'Sprinter'

- **Use:** This is an improved, fast-growing form of 'Winter Gem'. Its glossy evergreen foliage is attractive year-round, and it has excellent hardiness. This variety's more upright habit makes it great for hedging. Faster growth means it will fill in more quickly than other varieties. Use it for edging or a low hedge in formal gardens. Other splendid characteristics include deer resistance and tolerance of dry soils once established.
- **Exposure/Soil:** Prefers full sun to part shade. Keep surface of soil moist, but not soggy.
- **Growth:** Moderate grower to 2-4 ft. tall and wide, when unpruned.
- **Hardiness:** Zone 5-8; Shrub
- **Foliage:** Evergreen; Densely branched, the tiny, green foliage is abundant and adds a distinctive note to the landscape, retaining its color particularly well in winter.
- **Flower:** Spring flowers are inconspicuous.
