

Magic Crimson & Clover Camellia

Camellia sasanqua 'Magic Orchid'

- **Use:** Small flowers appear in great profusion in fall on this compact conical camellia. Camellias are used as fall-winter specimen shrubs, shrub borders and screens. The main ornamental feature is their showy flowers in colder fall-winter months when other plants are dormant.
- **Exposure:** Morning shade preferred (prevents frost damage to flowers), but tolerates sun with ample water, evenly moist, humus-rich; high in organic matter, acidic, well-drained (porous) soils, protection from cold, drying winter winds, ample moisture, mulch layer.
- **Growth:** Grows 8-10' high x 5-6' wide Upright and dense growth. Can easily be pruned after blooming to keep them shorter.
- **Hardiness:** Zone 7a-9b; shrub
- **Foliage:** Evergreen. Shiny, rich dark green leaves. Reddish new growth.
- **Flower:** Produces LOADS of true crimson flowers for 9+ weeks during fall and well into winter. Each flower is centered with a boss of bright yellow stamens for extra-added appeal.

Perfect for use as a privacy screen or hedge, in grouping, or to frame the corners of homes. A fine addition to red theme gardens, camellia gardens and cottage gardens. Also suitable for containers.
