

Paul's Gold® Chamaecyparis

Collector's plant! Excellent for adding interest to your garden!

Chamaecyparis pisifera 'Paul's Gold'

- **Use:** Beautiful evergreen plant that adds light and color to your garden all year long. Place as a specimen or accent plant, or mass into a border or hedge. The mop-head adds extra texture to a conifer garden. Very slow growing heat tolerant mophead cypress. Excellent golden-yellow color.
- **Exposure/Soil:** Full/part sun and could tolerate a fair amount of shade; well-draining soil and appreciates slow release fertilizer.
- **Growth:** Grows very slowly to 8' tall and 6' wide.
- **Hardiness:** Zone 4-8; shrub
- **Foliage:** Evergreen. Golden yellow leaves hold their color.
- **Flowers:** Not known for flowers.
