

Coral Beauty Cotoneaster

**Good for use
as a ground-
cover!**

Cotoneaster dammeri 'Coral Beauty'

- **Use:** Outstanding ground cover, its dense prostrate branches hold twiggly branchlets covered with rich green foliage.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Fast-growing to 2 ft. high, to 6 ft. wide.
- **Hardiness:** Zone 5-8 Shrub
- **Foliage:** Evergreen. Shiny, delicate green foliage. Purple tinge to fall foliage enhances profusion of coral-red berries.
- **Flower:** White flowers in late spring followed by coral berries in fall.
