

# Golden Promise Japanese Cedar

Collector's plant!  
Very drought tolerant, this slow grower is ideal for containers.

## *Cryptomeria japonica* 'Golden Promise'

- **Use:** For the garden looking for unusual plants this beauty has a coarse texture with its small awl-like, bright yellow foliage covering its small globe shape. An excellent choice for the rock garden or in a container on the patio, it will provide a colorful accent throughout the seasons. Drought tolerant.
- **Exposure/Soil:** Full/part sun and could tolerate a fair amount of shade; well-draining soil and appreciates slow release fertilizer.
- **Growth:** Moderate growth to 4' tall x 4' wide at a rate of 3-5" a year.
- **Hardiness:** Zone 6-9; Shrub
- **Foliage:** Evergreen. Coarse texture with its small awl-like, bright yellow foliage covering its small globe shape.
- **Flowers:** Not known for flowers.
