

Magic Dragon Japanese Cedar

Very easy to grow!
Unusual plant best
used as a specimen
plant. Or can be used
as a grouping plant.

Cryptomeria japonica 'Gyokuryu'

- **Use:** Interesting irregular pyramidal habit creates a unique silhouette in the landscape. Use as an individual specimen or plant in groups for greater interest.
- **Exposure/Soil:** Full sun; well-draining soil and appreciates slow release fertilizer. Little water needed once established.
- **Growth:** Moderate growth. Forms a dense, irregular pyramid 5 to 10 ft. tall, 3 to 7 ft. wide.
- **Hardiness:** 5-9; shrub
- **Foliage:** Evergreen. Deep green foliage does not become bronze in winter.
- **Flowers:** No noticeable flowers.
