

# Carolina Sapphire Arizona Cypress Pointed Cone Topiary

**Bring  
elegance  
to your  
garden!  
Thrives  
in dry,  
hot con-  
ditions.**

## ***Cupressus arizonica* 'Carolina Sapphire'**

- **Use:** Useful in landscape beds, islands and medians as screen, buffer, specimen, or in groups. Useful around the home or a building to frame the outside corners. Form is upright, broad and conical with weeping branchlets. An excellent selection to create a quick screen or buffer. Low maintenance, adaptable, and durable. Grows slightly taller, and a little faster than "Blue Ice". Slightly more erect growth habit than most Arizona Cypress. Very beautiful specimen tree for those who want something a little different and out of the ordinary.
- **Exposure/Soil:** Full to part sun. During the winter they prefer well-drained soils. Once established needs only occasional water. ***IF YOU HAVE THEM IN POTS PLEASE CONSIDER A DRIP IRRIGATION OR THEY WILL NOT FORGIVE YOU IF YOU FORGET TO WATER THEM.***
- **Growth:** A super-fast grower moderate to 30' tall and 10-15' wide. Conical, broadly pyramidal growing conifer. To maintain shape shear lightly every few months.
- **Hardiness:** Zone 7-9; Shrub
- **Foliage:** Evergreen Outstanding attractive blue-green foliage.
- **Flower:** Small cones.
