

Yuki Cherry Blossom® Deutzia

Deutzia x 'NCDX2' USPPAF

- **Use:** The first-ever 'Nikko'-type deutzia with pink flowers - over ten years in the making! Perfectly pretty pink flowers on a deutzia. A shower of elegant pink flowers creates a carpet of color. Great for mass plantings because of its neat, mounded habit and burgundy-purple fall color, this tough, adaptable plant makes an excellent groundcover, especially on a sunny slope. Deer resistant.
- **Exposure/Soil:** Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Feed with a general purpose fertilizer before new growth begins in spring. Soil must be amended with a rich organic matter or peat based soil. Will not tolerate red clay. For a tidy, neat appearance, shear annually to shape.
- **Growth:** Moderate grower to 1-2ft. tall and wide.
- **Hardiness:** Zone 5a-8b, Shrub
- **Foliage:** Deciduous. Its elliptical leaves are medium green, held opposite to one another on the stem and rich purple-burgundy fall foliage.
- **Flower:** Beautiful clusters of pink star-shaped flowers appear in late spring to early summer.

*Pink, bell-like flowers cover the plant in spring
*Loves sun and resists deer
*Excellent groundcover, and works especially well on slopes
