

Yuki Kabuki® Deutzia

**Top reasons to
grow Yuki Kabuki
Deutzia?**
**Two solid seasons
of interest**
**Adaptable to many
different conditions**
**Mounded mid-size
habit**

Deutzia x 'NCDX3' PP36667

- **Use:** Let Yuki Kabuki deutzia help you with your spring task list. That is, let it help lighten your load. It doesn't need a prune at all, as it naturally maintains a tight rounded habit and blooms on old wood. Just enjoy the mass of tiny pink and white blooms in the spring and a tide of bright fall color when the weather starts to cool. With a low habit, it fits in nicely amongst perennials and other shrubs in a mixed border. With its low maintenance nature, you could easily use it in a container display or plant multiple in a low hedge. Great for mass plantings because of its neat, mounded habit and burgundy-purple fall color, this tough, adaptable plant makes an excellent groundcover, especially on a sunny slope. Deer resistant.
- **Exposure/Soil:** Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Feed with a general purpose fertilizer before new growth begins in spring. Soil must be amended with a rich organic matter or peat based soil. Will not tolerate red clay. For a tidy, neat appearance, shear annually to shape.
- **Growth:** Moderate grower to 3-4ft. tall and wide.
- **Hardiness:** Zone 5a-8b, Shrub
- **Foliage:** Deciduous. Handsome glossy foliage takes on yellow, red, and purple tones in autumn for a much longer and more interesting display.
- **Flower:** Beautiful clusters of deep pink star-shaped flowers appear in late spring to early summer.
