Deutzia 'Yuki Snowflake'

- **Use:** If you like 'Nikko', you'll love this extra-heavy blooming variety. Elegant white spring flowers appear at the perfect time for spring gardens, and its neat, mounded habit and attractive fall color make it a great landscape plant, too. Great for mass plantings because of its neat, mounded habit and burgundy-purple fall color, this tough, adaptable plant makes an excellent groundcover, especially on a sunny slope. Deer resistant.
- **Exposure/Soil:** Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Feed with a general purpose fertilizer before new growth begins in spring. Soil must be amended with a rich organic matter or peat based soil. Will not tolerate red clay. For a tidy, neat appearance, shear annually to shape.
- **Growth:** Moderate grower to 1-2ft. tall and wide.
- **Hardiness:** Zone 5a-8b, Shrub
- **Foliage:** Deciduous. Its elliptical leaves are medium green, held opposite to one another on the stem and rich purple-burgundy fall foliage.
- **Flower:** Beautiful clusters of white star-shaped flowers appear in late spring to early summer.
