

Gardenia 'Aimee'

Plant near entryways to enjoy its wonderful scent in spring and fall.

Gardenia jasminoides 'Aimee'

- **Use:** HUGE 4-5" double blooms are intensely fragrant! This is the largest flowered of all Gardenias. The large dark green glossy foliage provides a contrasting background to the pure white blooms. Can be shaped into a tree standard. A must have for every Southern garden for their showy flowers!
- **Exposure/Soil:** Full/part sun (needs great soil and good irrigation in full sun); well-draining soil and appreciates slow release fertilizer. Keep soil moist, but not soggy. If you have red clay you must amend the soil. Protect in cold winters if in containers
- **Growth:** Fast grower to 5 feet tall, 3 feet wide.
- **Hardiness:** Zone 7b-9; Shrub
- **Foliage:** Glossy green foliage make this compact shrub a standout in any landscape.
- **Flowers:** Sweetly fragrant, large 4-5" pure white flowers.
