Hydrangea macrophylla 'Let's Dance Rhythmic Blues'

- **Use:** The Let's Dance hydrangea series represents the next generation of re-blooming hydrangea. They have improved flower color and attractive foliage so you have a more beautiful garden. Every year, Let's Dance hydrangeas bloom on both new wood and old wood, delivering lots of flowers and lots of wow to your landscape. They combine into dozens of lush, full, mophead flowers that are pink in alkaline soils and a fabulous blue in acidic conditions. An outstanding rebloomer .
- **Exposure/Soil:** Partial (60-70% of the day) sun is best. Water regularly, when top 3 in. of soil is dry. Keep water off leaves. **DO NOT PLANT IN FULL SUN** in the South or you will get leaf burn in August and it will wilt on hot days. Large, full flower heads will readily go heavenly blue in acid soils; in alkaline soils, they'll be vivid pink.
- **Growth:** Fast-growing to 3-6 feet high and 3-6' in width in only 4 years. Best left unpruned - though they bloom on both old and new wood, you'll enjoy many more blooms over a longer period if you don't prune them except to remove any dead wood in spring, once the new growth has emerged.
- **Hardiness:** Zone 5-9 Shrub
- **Foliage:** Deciduous. Large heart shaped leaves.
- **Flower:** The lush flower heads— blue on acid soils, deep pink on alkaline—are held upright on strong stems all summer long.
