

Nelliet™ Holly

Ilex hybrid 'ROX' PPAF

- **Use:** This new improvement on the classic holly (Nellie R Stevens) offers superior branching, denser foliage, and requires minimal pruning. It features a classic pyramidal shape, dark green leaves, and glistening red berries. One of the most attractive of all hollies. Vigorous grower with dense branches, it makes an excellent tall screen. Creates an impressive statement in the landscape when planted in groups, used as a large background plant or specimen. Loved for the clusters of berries in the winter!
- **Exposure/Soil:** Full sun-part shade. Well-drained soil, not soggy. Water the 1st two years for best growth. If it doesn't rain for 7-10 days, then water. For fastest growth use slow release fertilizer two times a year!
- **Growth:** Strong growth 15–25' high x 10–15' wide. Tighter growing with less pruning needed than other hollies of this size.
- **Hardiness:** Zone 6a-9b; shrub
- **Foliage:** Evergreen. Dark green foliage.
- **Flower:** Bears abundant, large, bright red berries Not known for flowers. Male Chinese hollies are useful planted nearby as pollinizers.

Loved for it's ability to be trained as a small tree, hedge, or pyramidal shaped accent shrub.
