

# Red Sky Holly

**Great for use in small mixed containers on your patio.**

## ***Ilex crenata Hybrid 'RutHol8'***

- **Use:** This dense, upright, structural addition to consumers' landscapes adds color with its reddish new growth and black berries. Has a dense habit that makes it ideal for shearing for a formal appearance or into topiary shapes. Also can be used as a very narrow scree, in containers, as an accent, and impactful in a mass planting.
- **Exposure/Soil:** Full sun to part shade. Use slow release fertilizer for best results. Water regularly, when top 3" of soil is dry.
- **Growth:** Grows 8' tall and 3' wide so an ideal item to plant at the corner of the home.
- **Hardiness:** Zone 6a-9b, Shrub
- **Foliage:** Evergreen. Small green leaves and new growth is a reddish bronze.
- **Flower:** Not known for flowers as they are very small, but they do produce black berries.
