

Screen Play Holly

lex integra × *latifolia* 'Screen Play' PP27524

- **Use:** A new holly hybrid with a well branched dense upright habit. Glossy, spineless, large, light green foliage tinged with bronze. Excellent for hedges and screens.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Forms a med tree that grows 30' tall and 10' wide at the base.
- **Hardiness:** Zone: 6-9; Shrub
- **Foliage:** Evergreen; A holly without having stickers and with beautiful laurel-like foliage.
- **Flower:** Deep red fruit in fist shaped clusters that are extremely showy. Dioecious (Has male and female flowers on same plant) Deep red berries in early winter.

Excellent for creating a large dark green hedge to block out the neighbors.
