

Arrow Point™ Holly

This holly is disease-resistant, pest-resistant, and drought-tolerant, making it a low-maintenance option for gardeners of any experience level.

Ilex x 'RUTH014' PP32759

- **Use:** Handsome evergreen holly with a natural pyramidal form creates a superb hedge, screen, or windbreak. An excellent topiary specimen or formal accent to entryways or gardens.
- **Exposure/Soil:** Full sun to part shade. (Full shade results in sparse growth and loss of golden foliage). Use slow release fertilizer for best results. Water regularly, when top 3" of soil is dry.
- **Growth:** Moderate growing 10 ft. tall, 6 ft wide at the base.
- **Hardiness:** Zone 5-8, Shrub
- **Foliage:** Evergreen. Soft foliage has no spine and emerges with gentle, burgundy flush before maturing green. Dense, glossy, bright green foliage is tolerant of shearing.
- **Flower:** Small cream-colored flowers do not produce berries.
