

Angelica Blue Pfitzer Juniper

Juniperus chinensis 'Angelica Blue'

Lovely, blue foliage!
Great for erosion control on banks!
Drought tolerant once established.

- **Use:** A fast growing spreading shrub with fine, bright blue foliage. The cool winter temperatures only serve to intensify the bright blue color. Creates excellent texture and color contrast when mixed with dark green foliated plants.
- **Exposure/Soil:** Prefers full sun to part sun. Prefers a well drained soil. Little water needed once established.
- **Growth:** Vigorous growth 3 to 5 feet tall, spreading 5 to 10 feet wide.
- **Hardiness:** Zones 4-9, Shrub
- **Foliage:** Evergreen.
- **Flower:** No noticeable flowers.
