

# Blue Point Juniper

## *Juniperus chinensis* 'Blue Point'

- **Use:** A favorite for stately lawn specimens and tall screens. Will retain its cone-shaped form well without shearing. This Juniper is a good choice for screening in the landscape as an accent, or in containers for a few years.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry. Little water needed once established.
- **Growth:** It is a moderate grower getting up to 12 feet tall and 8 feet wide.
- **Hardiness:** 4-9 shrub, small tree
- **Foliage:** An evergreen densely branched, broad pyramid form with glowing blue-green foliage. Maintains form well with practically no shearing.
- **Flower:** Not known for flowers.

**Can grow in a patio planter for 2-3 years and then you can transfer to the garden.**
