

# Parson's Juniper

## *Juniperus chinensis 'Parsonii'*

- **Use:** It makes an excellent evergreen foundation planting or erosion control groundcover and a great ground cover in seaside areas because it is very tolerant of salt spray. This is one of the more popular evergreens for bonsai.
- **Exposure/Soil:** Full sun to part shade. Use slow release fertilizer for best results. Water if it hasn't rained in 2 weeks. Drought tolerant when established.
- **Growth:** This is a low growing, spreading variety of Juniper with a dwarf mounding habit spreading up to 5' in width, but only reaching a maximum of 2-3' in height in two growing seasons.
- **Hardiness:** 6-8, shrub
- **Foliage:** Evergreen.
- **Flower:** Not known for flowers.

**Good for erosion control on hillside.**
