

Golden Pacific Juniper

Great for erosion control on banks or over a retaining wall! This juniper variety is well suited for use as a groundcover, and works well in mass plantings to cover any area with good sun exposure.....small, or large.

Juniperus conferta 'Golden Pacific'

- **Use:** This carpet-forming evergreen groundcover Juniper has golden yellow color that is at its brightest in full sun. An excellent groundcover or for cascading over walls.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry to start. Little water needed once established.
- **Growth:** Will grow only 8-12" inches tall and 3 to 6 feet wide.
- **Hardiness:** Zone 6-9, Shrub
- **Foliage:** Evergreen. Color is best when planted in locations with excellent sun exposure - the better the sun, the better the golden yellow color will be.
- **Flower:** Neither the flowers nor the fruit are ornamentally significant.
