Juniperus squamata 'Blue Star'

- **Use:** Blue Star Juniper On Standard is a dense evergreen dwarf tree, selected and trained to grow in a small tree-like form with the primary plant grafted high atop a standard. Primarily valued in the landscape or garden for its highly ornamental lollipop-like shape. It has attractive blue evergreen foliage which emerges silvery blue in spring. The needles are highly ornamental and remain blue throughout the winter. **THIS PLANT IS FOR ADVANCED GARDENERS AND WILL NEED MAINTENANCE. PLEASE NOTE OUR ALL SALES FINAL POLICY.** While they can certainly look great in a pot drainage and watering will need a close eye.
- **Exposure/Soil:** Prefers full sun to light shade. Water regularly, when top 3 in. of soil is dry to start. Little water needed once established.
- **Growth:** Slow-growing to 2-3 ft. high, 3-4 ft. wide on the grafted stem.
- **Hardiness:** Zone 5-9, Shrub
- **Foliage:** Dense blue-green foliage gives this selection a handsome appearance. Evergreen.
- **Flower:** No noticeable flowers.
