

'Sunshine' Ligustrum

Let the
Sunshine
in!
Brightens
any space
with its
striking
semi-ever-
green
golden
foliage

Ligustrum sinense 'Sunshine' PP20379

- **Use:** Ideal as a low-growing hedge and fast-growing in the landscape. This sterile cultivar will not re-seed into the landscape. Sunny, year-round golden foliage makes for a beautiful garden. Can be used to create a natural hedge, an eye-catching pop of color, add vibrant foliage to containers, or line pathways to the front door.
- **Exposure/Soil:** Full (best color)/part sun; well-draining soil and appreciates slow release fertilizer. Drought tolerant once established.
- **Growth:** Moderate-fast grower of 3-6' tall and 3-4' wide
- **Hardiness:** Zone 6a-10b; Shrub
- **Foliage:** Evergreen (Semi-deciduous in zone 6 gardens.) Foliage is painted with orange overtones in cooler weather.
- **Flower:** Sterile. In fact, it doesn't bloom at all, which is good news for allergy sufferers!
