

# Golden Glow Honeysuckle

This is a great plant for tricky slopes or to add color under trees or in a shady area. Will attract birds and is deer and rabbit resistant.

## *Lonicera nitida* 'Golden Glow'

- **Use:** New to us in 2022, *Lonicera nitida* 'Golden Glow' is a small and compact evergreen shrub with bright golden-green leaves through the year and tiny, white flowers in Spring.
- Slow growing and suitable for small gardens it can also be pruned to shape for hedging or topiary. Can be grown in a large container if required.
- **Exposure/Soil:** Prefers part sun, but will take shade. Water regularly, when top 3 in. of soil is dry to start. Little water needed once established. Dislikes water logging or very wet ground.
- **Growth:** Stays low at 3' tall and 3' wide.
- **Hardiness:** Zone 5-8; Perennial Vine or Shrub
- **Foliage:** Semi-deciduous. This plant will be partially evergreen in zones 7 and 8.
- **Flower:** The creamy white flowers appear in spring followed by bluish fruit in late summer.
