

# Cool Glow Peach Nandina

**Richer color than ordinary nandinas**

## ***Nandina 'Cool Glow Peach' (ZHNAN28' PP32,397)***

- **Use:** Shades of peach and apricot in fall and winter make Cool Glow® Peach Nandina a warm-climate favorite. This variety presents lacy dark green foliage that is continuously attractive throughout the year with a well-behaved, compact habit and sparse seed set. A moderately fast grower, this shrub forms a dense upright mound perfect for foundation and mass plantings.
- **Exposure/Soil:** Plant in full sun to partial sun. Will tolerate some shade, but will be less vibrant in chartreuse color. It is adaptable to a range of soil types, including dry conditions. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves for best results. Drought tolerant once established.
- **Growth:** Dwarf habit 3 to 4 ft. tall and wide.
- **Hardiness:** Zone 6-10; Shrub
- **Foliage:** Evergreen. It will glow against a wintery backdrop with its soft orange foliage in fall and winter. This shrub looks stunning year-round with its dark green spring foliage.
- **Flower:** Tiny white flowers in spring, but not noticeable.
