## ***Nandina 'Cool Glow Pomegranate' ('ZHNAN53' PP32,422 )***

- **Use:** Selected for spectacular red winter color and compact habit, Cool Glow® Pomegranate Nandina shows off lacy dark green foliage that remains eye-catching throughout the year. An adaptable grower in a range of soil types, it matures moderately fast and forms a dense upright mound ideal for foundation and mass plantings
- **Exposure/Soil:** Plant in full sun to partial sun. Will tolerate some shade, but will be less vibrant in chartreuse color. It is adaptable to a range of soil types, including dry conditions. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves for best results. Drought tolerant once established.
- **Growth:** Dwarf habit 3 to 4 ft. tall and wide.
- **Hardiness:** Zone 6-9; Shrub
- **Foliage:** Evergreen. Lacy dark green foliage that is incredibly attractive throughout the year, especially striking in the winter with its red color.
- **Flower:** Tiny white flowers in spring, but not noticeable.
