

# Orange Sweet Tea Olive

**FRAGRANT!**

## *Osmanthus fragrans forma aurantiacus*

- **Use:** Add glossy green texture and fragrance to your garden. More compact and dense than the regular *Osmanthus fragrans*.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Sweet Olive can grow up to 6-8 feet high and 6-8 feet wide, but easily pruned to keep even shorter! This plant is great for use as a small tree, espalier, or screen.
- **Hardiness:** 7-10 shrub, small tree
- **Foliage:** Evergreen shrub with broad upright growth and has dark green finely toothed foliage.
- **Flower:** Tiny tubular orange flower clusters with an apricot-like fragrance blooming from spring through fall, these are followed by bluish black fruit.
