

Dwarf Japanese Mock Orange

Pittosporum tobira 'Mojo'

It is a great plant to use when a short foundation plant is needed, and also produces small, creamy white, orange blossom scented, flowers in late spring.

- **Use:** Mojo is a tough, evergreen shrub, with dense variegated foliage and orange blossom scented blooms. Great for hedges and foundation plantings, excellent salt tolerance makes Mojo perfect for planting along the coast, too. This plant is wonderful for the front of shrub borders, and it is ideal for patios and terraces.
- **Exposure/Soil:** Prefers full sun to part shade. Water regularly, when top 3 in. of soil is dry to start. Little water needed once established. Must have well drained soil. Sandy and salty soil tolerant.
- **Growth:** Moderate grower to 3 feet high and wide.
- **Hardiness:** Zone 7-9, Shrub
- **Foliage:** Evergreen. Variegated green leaves have a creamy yellow border.
- **Flower:** Fragrant orange blossom scented flowers.
