

# Bloom 'N Again® Snowball™ Azalea

## *Rhododendron x 'Hardy Gardenia' (AKA -Echo® Snowball™)*

- **Use:** The new Bloom 'N Again® azalea series offers multi-season color, evergreen foliage, and good cold hardiness (reliably to U.S. Hardiness Zone 6b). Exceptionally white double blooms cover this prostrate azalea in spring and again in fall. An excellent choice for borders, mass plantings, or containers.
- **Exposure/Soil:** Prefer light shade and well-drained, slightly acidic soil, rich with organic matter. Dig hole two times the width of the container. If the soil appears too sandy or is heavy clay, amend with organic matter. Remove from the container and place in hole so that the top of the root ball is slightly above the ground level. Backfill. Water. Mulch. Keep moist until established.
- **Growth:** Moderate grower to 3-4 feet tall and 3-4 feet wide.
- **Hardiness:** Zone 7-9; Shrub
- **Foliage:** Evergreen; The lush, dense green foliage grows into a semi-upright form.
- **Flower:** The double blooms of Snowball create a flurry of white in the garden.

Plant Bloom 'N Again ® Azaleas in mass to create an eye-catching display for the garden. With their unique flower shapes and forms, they are ideal in borders for a pop of impact with long lasting appeal
