Rhododendron 'Robles' 22762

Encore® Series

- **Use:** These popular azaleas provide a snowstorm of blooms... over and over from spring right through autumn. Its compact growth habit makes it well suited as a hedge or as a specimen. Autumn Lilac was bred for its cold hardy tendencies and selected for its rounded growth habit. Its compact growth habit and consistent rounded shape make it an attractive garden addition even when not in bloom.
- **Exposure/Soil:** Light shade to full sun. Water regularly, when top 3 in. of soil is dry. Feed twice a year with a slow release fertilizer. Prefers slightly acidic well drained soils.
- **Growth:** Moderate grower to 3 feet tall and 3.5 feet wide.
- **Hardiness:** Zone 6a - 10b; Shrub
- **Foliage:** Evergreen. The color does not end with the blooms. During the winter months, this variety's foliage turns a gorgeous burgundy hue.
- **Flower:** Brilliant, 2" lavender blooms are accented with darker purple freckles and stand out against its rich evergreen foliage from spring to fall sporadically.
