Rhododendron 'Roblet' PP25072

Encore® Series

- **Use:** One of the newest Encore® Azaleas, Sunburst is a bright high-light in the garden, growing compactly to make them ideal for foundation plantings or in container gardens.
- **Exposure/Soil:** Provide 4-6 hours of full sun (morning best), for best blooms, with some shade during the afternoon heat to protect from burning. Water regularly, when top 3 in. of soil is dry. Feed twice a year with a slow release fertilizer. Prefers slightly acidic well drained soils.
- **Growth:** Moderate grower to 3 feet tall and 3.5 feet wide.
- **Hardiness:** Zone 6a - 10b; Shrub
- **Foliage:** Evergreen. With its deep green foliage, Autumn Sunset makes a significant color impact in any garden setting.
- **Flower:** Produces 2.5" single to semi-double bicolor coral pink blossoms with soft white ruffled edges. These gorgeous flowers emerge in greatest numbers during a massive initial spring bloom. Afterward, they will produce 2-3 more slightly smaller reblooms before the onset of winter. With warmer zones having the potential to see even more bloom cycles!
