Rhododendron 'Roblev' PP25046

Encore® Series

- **Use:** These popular azaleas provide a snowstorm of blooms... over and over from spring right through autumn. Its compact growth habit makes it well suited as a hedge or as a specimen. Bred for its cold hardy tendencies and selected for its rounded growth habit. Its compact growth habit and consistent rounded shape make it an attractive garden addition even when not in bloom.
- **Exposure/Soil:** Provide 4-6 hours of full sun (morning best), for best blooms, with some shade during the afternoon heat to protect from burning. Water regularly, when top 3 in. of soil is dry. Feed twice a year with a slow release fertilizer. Prefers slightly acidic well drained soils.
- **Growth:** Moderate grower to 2.5 feet tall and 3 feet wide.
- **Hardiness:** Zone 7a –10b; Shrub
- **Foliage:** Evergreen. The color does not end with the blooms. During the winter months, this variety's foliage turns a gorgeous burgundy hue.
- **Flower:** Provides landscape color year-round with its 2" white blooms in spring, summer, and fall, and its attractive purple winter foliage.
