

# Perfecto Mundo® Double Pink Reblooming Azalea

## *Rhododendron x 'NCRX3' USPP 32*

- **Use:** In a perfect world, azaleas would bloom for months instead of just weeks, have big, full flowers with pure and true colors, and resist pests and diseases - and that's exactly what Perfecto Mundo™ azaleas do. This innovative series from award-winning plant breeder Dr. Tom Ranney of NCSU combines peerless performance with lacebug resistance, a pest that threatens azaleas in many areas. Perfecto Mundo Double Pink azalea is the series debut, a neat, rounded shrub that's covered with double pink blooms in spring, when other azaleas bloom, but then after a brief rest, begins blooming again in mid summer and continues through frost.
- **Exposure/Soil:** Morning sun of 4-6 hours and afternoon shade to protect foliage from heat burn is ideal. Water regularly, when top 3 in. of soil is dry. Feed twice a year with a slow release fertilizer. Prefers slightly acidic well drained soils.
- **Growth:** Moderate grower to 2-3 feet tall and wide.
- **Hardiness:** Zone 6 -9 Shrub
- **Foliage:** Evergreen. Resistant to lace bug, a pest that can be problematic in certain areas.
- **Flower:** Double pink ruffled flowers. Reblooming azalea provides months of blooms, not merely weeks.

Imagine the perfect reblooming azalea: it would bloom longer than all the others, with pure, rich colors. It would grow well in sun or part shade, and resist damage from the nefarious azalea lacebug that plagues the plant in some areas. You say you want showy double flowers, too? Your wish is our command, as that's exactly what you'll get with this beauty.
