

Candy Cane Cocktail™ Rose

Displays bicolor blooms of white suffused with deep pink to red edges that stand out in the garden. It features superior disease resistance and impressive re-blooming.

Rosa 'Meiriansois' PP28661

- **Use:** This holiday-themed Floribunda displays lovely, bi-colored blooms of white suffused with deep pink to red edges. Candy Cane Cocktail™ has superior qualities and has inherited its exceptional re-bloom and disease resistance from the line of Knock Out Family of Roses. Add this rose to your cutting garden for delightful blossoms all season long.
- **Exposure/Soil:** Full to part sun. Roses do not like water on foliage from sprinklers or garden hoses. They prefer well-drained soils so be sure to amend red clay and mound the flower beds if possible. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 3-4' tall and 3-4' wide.
- **Hardiness:** Zone 5a-10b; Shrub
- **Foliage:** Deciduous. Dark green foliage has unsurpassed resistance to black spot leaf disease.
- **Flower:** Beginning in early to mid spring and continuously to frost, Candy Cane Cocktail displays abundant and lightly fragrant double roses with up to 42 white petals edged in deep pink to red. As the blooms age the petals turn to pink while retaining the deep pink to red edges.
